Agency History
The Brooklyn Academy of Music (BAM), founded in 1861, is a thriving arts center in Brooklyn. Originally conceived as a home for classical music, it quickly broadened to include theater and lectures, and welcomed the star performers of the day. After the original location in Brooklyn Heights was destroyed by fire in 1903, a new theater was built at 30 Lafayette Avenue in Fort Greene, and the BAM campus has now grown to comprise three buildings. Today, BAM is known as an adventurous multi-arts center with world-renowned programming. It is celebrated for its Next Wave Festival in the fall, which presents contemporary experimental performance, and for its spring season of international theater, dance, and opera. BAM also offers a robust roster of film, a comprehensive Education & Humanities program, and serves an important civic function, hosting numerous community events.
